

# WOOD GUARD

## TECHNICAL DATA SHEET

A-WOOD

### 1. IDENTIFICATION

#### 1.1. Product Identifier

Code:

A-WOOD

Product name

**WOOD GUARD**

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use

*Water and oil-repellent treatment of untreated wood surfaces.  
For professional use only.*

#### 1.3. Details of the supplier of the safety data sheet

Name

Armus LLC

Full address

137 Grand Street 3rd Floor  
New York, NY 10013

Country

United States  
Tel. (+1) 917-957-5383

E-mail address of the competent person responsible for the Safety Data Sheet

bill@armussolutions.com

#### 1.4. Emergency telephone number

For urgent inquiries refer to

Tel. (+1) 917-957-5383 United States

### 2. HAZARDS IDENTIFICATION

#### 2.1. Classification of the substance or mixture

The product is not classified as hazardous pursuant to the provisions set forth in OSHA Hazard Communication Standard (HCS) (29 CFR 1910.1200). However, since the product contains hazardous substances in concentrations such as to be declared in section no. 3, it requires a safety data sheet with appropriate information.

Any additional information concerning the risks for health and/or the environment is given in sections 11 and 12 of this sheet.

Label elements:

#### Emergency Overview

The product contains no substances which at their given concentration are considered to be hazardous to health.

Hazard statements:

#### Disposal:

P501

Dispose of contents or container according to local/national/international regulations

#### 2.2 Other hazards

None based on available information.

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

#### 3.1. Components

The product does not contain substances classified as being hazardous to human health or the environment pursuant to the provisions set forth in OSHA Hazard Communication Standard (HCS) (29 CFR 1910.1200).

### 4. FIRST-AID MEASURES

#### 4.1. Description of first aid measures

<b>GENERAL ADVICE:</b>	Move out of work / application area. Consult a physician. Show this material safety data sheet to the doctor in attendance.
<b>EYES:</b>	Remove contact lenses. In the case of contact with eyes, rinse immediately with plenty of water and seek medical attention. Keep eyes wide open while rinsing. Continue rinsing eyes during transport to medical facility for at least 30-60 minutes.
<b>SKIN:</b>	Take off contaminated clothing and shoes immediately. Shower immediately. Seek medical advice / attention.
<b>INGESTION:</b>	Seek medical advice / attention immediately. Have the subject drink as much water as possible. Do not induce vomiting unless explicated authorized by a doctor.
<b>INHALATION:</b>	Move to fresh air. Seek medical advice / attention immediately. If the subject stops breathing, administer artificial respiration. Take suitable precautions for rescue workers.

#### 4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product is unknown.

#### 4.3. Indication of any immediate medical attention and special treatment needed

None based on available information.

### 5. FIRE-FIGHTING MEASURES

#### 5.1. Extinguishing media

<i>Suitable extinguishing equipment</i>	The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder, and water spray.
<i>Unsuitable extinguishing equipment</i>	None in particular.

#### 5.2. Special hazards arising from the substance or mixture

<i>Specific hazards during fire fighting</i>	Do not breathe combustion products.
--	-------------------------------------

#### 5.3. Advice for firefighters

<i>General information</i>	Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.
----------------------------	---

*Special protective equipment for fire-fighters*

Normal firefighting clothing i.e., fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment, and emergency procedures

Block the leakage.

Wear suitable protective equipment (including personal protective equipment referred to under section 8 of the safety data sheet) to prevent any contamination of skin, eyes, and clothing.

These indications apply for both product users and those involved in emergency procedures.

### 6.2. Environmental precautions

The product must not enter the sewer system or come into contact with surface water or groundwater.

### 6.3. Methods and material for containment and cleaning up

Collect leaked product into a suitable container.

Absorb spilled product with inert absorbent material.

Make sure the leakage site is well-aired.

Contaminated material should be disposed of in compliance with the provisions set forth in section 13.

### 6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

## 7. HANDLING AND STORAGE

### 7.1. Precautions for safe handling

Before handling the product, consult all the other sections of this material safety data sheet.

Do not eat, drink, or smoke during use.

Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

The product must not enter the sewer system or come into contact with surface water or groundwater.

### 7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container.

Store in a cool and well-ventilated place, keep far away from sources of heat, open flames, sparks, and other sources of ignition.

### 7.3. Specific end use(s)

Refer to section 1.2

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1. Control parameters

None based on available information.

### 8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well-aired through effective local ventilation.

Personal protective equipment must comply with current regulations.

#### *Hand Protection*

Protect hands with category III work gloves (OSHA 29 CFR 1910.138).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable.

The gloves' wear time depends on the duration and type of use.

#### *Skin Protection*

Wear category I professional long-sleeved overalls and safety footwear.

Wash body with soap and water after removing protective clothing.

<i>Eye Protection</i>	Wear airtight protective goggles (OSHA 29 CFR 1910.133).
<i>Respiratory Protection</i>	<p>If the threshold value (e.g., TLV-TWA) is exceeded for the substance or one of the substances present in the product, wear a mask with a NIOSH certified filter, whose class must be chosen according to the limit of use concentration (NIOSH 42 CFR 84, OSHA 29 CFR 1910.134).</p> <p>In the presence of gases or vapors of various kinds and/or gases or vapors containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.</p> <p>Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.</p> <p>If the substance considered is odorless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus or external air-intake breathing apparatus. For a correct choice of respiratory protection device, see standard NIOSH 42 CFR 84, OSHA 29 CFR 1910.134.</p>
<i>Environmental Exposure Controls</i>	The product must not enter the sewer system or come into contact with surface water or groundwater.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

Appearance	Liquid
Color	Transparent
pH	4.5 ± 0.5
Melting Point / Freezing Point	< 32LF (0°C)
Boiling Point	Not available
Flash Point	> 212°F (100°C)
Flammability	Not available
Relative Density	1.00 ± 0.05 kg/L
VOC Content	1 g/L
Viscosity	2mPa-s @ 68°F (20°C)

## 10. STABILITY AND REACTIVITY

### 10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

### 10.2. Chemical stability

The product is stable in normal conditions of use and storage.

### 10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage.

### 10.4. Conditions to avoid

None in particular. However, the usual precautions used for chemical products should be respected.

### 10.5. Incompatible materials

None based on available information.

### 10.6. Hazardous decomposition products

None based on available information.

## 11. TOXICOLOGICAL INFORMATION

### 11.1. Information on toxicological effects

Metabolism, toxicokinetics, mechanism of action and other information

Not classified based on available information.

Information on likely routes of exposure

Not classified based on available information.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Not classified based on available information.

Interactive effects

Not classified based on available information.

Acute toxicity

Not classified based on available information.

Skin corrosion / irritation

Not classified based on available information.

Serious eye damage / irritation

Not classified based on available information.

Respiratory or skin sensitization

May produce an allergic reaction.

Germ cell mutagenicity

Not classified based on available information.

Carcinogenicity

Not classified based on available information.

Reproductive toxicity

Not classified based on available information.

STOT – single exposure

Not classified based on available information.

STOT – repeated exposure

Not classified based on available information.

Aspiration toxicity / hazard

Not classified based on available information.

## 12. ECOLOGICAL INFORMATION

Use this product according to good working practices. Avoid littering. Inform the appropriate authorities if the product reaches waterways or contaminates soil or vegetation.

### 12.1. Toxicity

None based on available information.

### 12.2. Persistence and degradability

None based on available information.

### 12.3. Bioaccumulative potential

None based on available information.

### 12.4. Mobility in soil

None based on available information.

### 12.5. Results of PBT and vPvB assessment

On the basis of available data, the product does not contain any Persistent, Bioaccumulative and Toxic (PBT) or very Persistent and very Bio-accumulative (vPvB) in percentage greater than 0.1%..

## 13. DISPOSAL CONSIDERATIONS

### Disposal methods

<i>Waste from residues</i>	Reuse when possible. Unused product should be considered special non-hazardous waste. Disposal must be performed through an authorized waste management firm, in compliance with local, national, and international regulations.
<i>Contaminated Packaging</i>	Contaminated packaging must be recovered or disposed of in compliance with all waste management regulations.

## 14. TRANSPORTATION INFORMATION

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

## 15. REGULATORY INFORMATION

### U.S. Federal Regulations

<i>TSCA</i>	No component(s) listed; in compliance with the List.
<i>Clean Air Act Section 112(b)</i>	No component(s) listed; in compliance with the List.
<i>Clean Air Act Sections 112(b), 602 Class I Substances, 602 Class II Substances</i>	No component(s) listed; in compliance with the List.
<i>Clean Water Act Priority and/or Toxic Pollutants</i>	No component(s) listed; in compliance with the List.
<i>DEA List I Chemicals (Precursor Chemicals) and List II Chemicals (Essential Chemicals)</i>	No component(s) listed; in compliance with the List.
<i>EPA List of Lists 313 Category Code:</i>	No component(s) listed; in compliance with the List.
<i>EPCRA 302 EHS TPQ</i>	No component(s) listed; in compliance with the List.
<i>CERCLA RQ</i>	No component(s) listed; in compliance with the List.
<i>EPCRA 313 TRI</i>	No component(s) listed; in compliance with the List.
<i>RCRA Code</i>	No component(s) listed; in compliance with the List.
<i>CAA 112 (r) TMP TQ</i>	No component(s) listed; in compliance with the List.

### State Regulations

Massachusetts / Minnesota / New Jersey / New York / Pennsylvania / California:  
No component(s) listed.

### CA Proposition 65:

This product does not contain chemicals known to the State of California to cause cancer, reproductive harm, or birth defects.

### LEGEND:

313 CATEGORY CODE	Emergency Planning and Community Right-to Know Act Section 313 Category Code
ADR	European Agreement concerning the carriage of Dangerous goods by Road
CAA 112 (r) RMP TQ	Risk Management Plan Threshold Quantity (Clean Air Act Section 112(R))
CAS NUMBER	Chemical Abstract Service Number
CE50	Effective concentration (required to induce a 50% effect)
CERCLA RQ	Reportable Quantity (Comprehensive Environment Response, Compensation, and Liability Act)
CLP	EC Regulation 1272/2008
DEA	Drug Enforcement Administration
EmS	Emergency Schedule
EPA	US Environmental Protection Agency
EPCRA	Emergency Planning and Community Right-to-Know Act
EPCRA 302 EHS TPQ	Extremely Hazardous Substance Threshold Planning Quantity (Section 302 Category Code)
EPCRA 304 EHS RQ	Extremely Hazardous Substance Reportable Quantity (Section 304 Category Code)
EPCRA 313 TRI	Toxics Release Inventory (Section 313 Category Code)
GHS	Globally Harmonized System of classification and labeling of chemicals
IATA DGR	International Air Transport Association Dangerous Goods Regulation
IC50	Immobilization Concentration 50%
IMDG	International Maritime Code for dangerous goods
IMO	International Maritime Organization
LC50	Lethal Concentration 50%
LD50	Lethal Dose 50%
OEL	Occupational Exposure Level
PEL	Predicted Exposure Level
RCRA Code	Resource Conservation and Recovery Act Code
REL	Recommended Exposure Limit
RID	Regulation concerning the international transport of dangerous goods by train
TLV	Threshold Limit Value
TLV CEILING	Concentration that should not be exceeded during any time of occupational exposure.
TSCA	Toxic Substances Control Act
TWA STEL	Short-term Exposure Limit
TWA	Time-weighted Average Exposure Limit
VOC	Volatile Organic Compounds
WHMIS	Workplace Hazardous Materials Information System

### Safety Data Sheet

**NOTE FOR USERS:**

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.

Purchasers must provide product users with adequate training on how to use chemical products.

ARMUS MAKES NO WARRANTIES EXPRESS OR IMPLIED AND ASSUMES NO LIABILITY ARISING FROM THIS INFORMATION OR ITS USE. ARMUS SHALL NOT BE LIABLE UNDER ANY LEGAL THEORY FOR CONSEQUENTIAL DAMAGES AND SHALL NOT BE RESPONSIBLE FOR THE USE OF THIS PRODUCT IN A MANNER TO INFRINGE ON ANY PATENT OR ANY OTHER INTELLECTUAL PROPERTY RIGHT HELD BY OTHERS.

**CALCULATION METHODS FOR CLASSIFICATION**

Product classification derives from criteria established by the OSHA Hazard Communication Standard (HCS) (29 CFR 1910.1200), unless determined otherwise in Section 11 and 12.

The data for evaluation of chemical-physical properties are reported in section 9.
